## SOFTWARE EXPERIENCE

Full Stack Web Developer, 2022-present  
**CODECADEMY I Remote**

### Projects Built

#### Code essentials generator app

Built with HTML, CSS and JavaScript To use as a tool. Its function is to remind and keep programmers up to date with programming languages.

### Key Achievement:

It served as a developer mini-self-guide for daily reinforcement.

#### Portfolio website

Built with HTML, CSS and JavaScript. Used the skills acquired from learning UI/UX design to create a brief and a wireframe using Figma; to design and create.
